

European Conference on Interventional Oncology

ECIO 2024

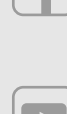

APRIL 28 - MAY 1 | PALMA DE MALLORCA, ES

JOIN US!

LEADERS IN ONCOLOGIC INTERVENTIONS

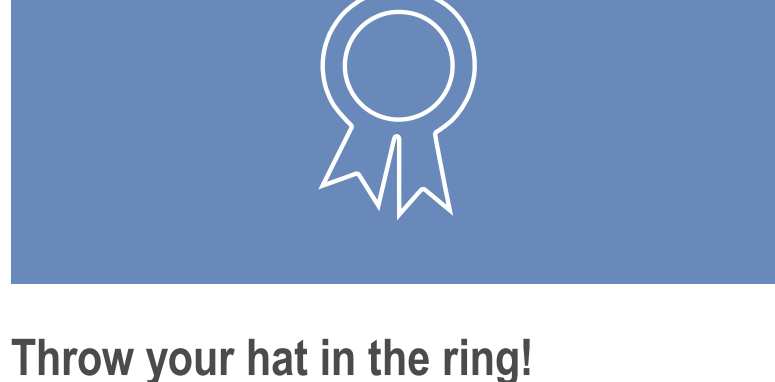

JOIN US IN PALMA DE MALLORCA FOR ECIO 2024!

The interventional oncology congress of the year is coming up fast, so make sure you are fully registered! The Collaborating Against Cancer Initiative is still accepting applications, so use this great opportunity to take a non-radiologist colleague from your MDT to the congress free of charge! In the meantime, to get a first glimpse of some topic highlights, read the sneak peek articles from the lecturers and moderators themselves here.

Record number of abstracts received

A record-breaking 1,812 abstracts were submitted for CIRSE 2024 in addition to 50 cases for the Amazing Interventions session, marking a whopping 20% increase compared to last year. Many thanks for all submitters who will be notified about acceptance or rejection in mid-May.

Throw your hat in the ring!

If you have published original research, registered a patent, or otherwise contributed to the advancement of interventional radiology, nominate yourself or your team for this year's Award of Excellence and Innovation in IR! The prestigious distinction comes with a cash prize of €6,000 and will be awarded at the CIRSE 2024 opening ceremony.

Deepen your knowledge of TARE for liver tumours

The way radioembolization is performed is continuously evolving, pushed by technical innovations, the current availability of three different types of microspheres, and increasing insight into the need for patient-specific dosimetry. In this two-day course at Utrecht's University Medical Center, attendees will learn about the fundamentals, techniques, and the latest evidence in the field.

IVUS case competition

All medical students, fellows, and recently graduated physicians are invited to submit their successful intravascular ultrasound cases for the IVUS case competition taking place at CIRSE 2024. The top five candidates will receive free registration for CIRSE 2024 and travel support to present their cases at the congress where the overall winner will be chosen by the audience.

Editor's choice

Discover the latest highlights on the CVIR Editor's choice list! Browse through the list of articles from every issue of CVIR hand-selected by CVIR Editor-in-Chief Klaus Hausegger for their outstanding content and quality and find your favourites!

Ethical publishing workshop

Save the date! CVIR Endovascular Editor-in-Chief Prof. Jim Reekers will host a two-part workshop during ET 2024 on June 2 and 3 to offer a practical guide on ethical publishing and critical appraisal, covering topics like authorship criteria, assessing validity of a research paper, and more. Don't miss out! Check our website for updates.

PAE webinar available on demand

Prostatic artery embolization for benign prostatic hyperplasia has proven to be a safe and effective treatment. However, it is still not being practised in many medical centres. In this recent webinar, a panel of international experts shared their insights on patient assessment as well as innovative techniques for addressing lower urinary tract symptoms (LUTS), BHP, and PAE. Now available free of charge via the CIRSE Library!

Mapping the gaps in inter-specialty cancer training

As consortium member of the INTERACT-EUROPE 100 project, CIRSE invites you to participate in a short survey exploring existing open access inter-specialty training resources for professionals working in cancer care. The survey is conducted as part of INTERACT-EUROPE 100 project co-funded by the European Commission, and is completely anonymous. The aim is to collect information and links to available online training resources. For any questions, please contact imane.elonen@turkuamk.fi

CIRSE 2024 Students Programme

CIRSE invites all undergraduate medical students wishing to learn about IR to attend CIRSE 2024 free of charge! The Student Programme will include curated lectures, recommended hands-on device and simulation training sessions, and various social events. Make sure to spread the word!

Save on registration

ET 2024 is coming up fast, so make sure to secure your registration at the reduced early fee and book one of the specially selected hotels offering preferential rates for ET 2024 delegates through our official travel partner Kuoni Tumlare. To put together your personal itinerary, browse the interactive timetable and read the sneak peeks of some of this year's highlight topics!

Paclitaxel restrictions lifted.
What does this mean for you and your patients?

CIRSEinsider

For all interested parties wishing to learn more about CIRSE's projects and initiatives, CIRSE Insider provides in-depth articles and interviews on everything going on within the society. Click on the links below to find out more!

CVIR: The new editors for AI

Artificial intelligence is evolving rapidly, becoming increasingly important within medicine and IR by the day. It has become imperative for CVIR to include this field, and the journal has added a new section dedicated to AI to the editorial board this year. We spoke to the new editors to learn more.
