

ACCESS THE WORLD OF IR. WHEREVER. WHENEVER.

2025 ALL-ACCESS PASS ALREADY AVAILABLE

Get your 2025 All-Access Pass today and start enjoying its benefits right away; the entirety of CIRSE's online educational portfolio, including the more than 11,000 titles in the CIRSE Library, the 60+ CIRSE Academy courses, and online access to ECIO, ET and of course the CIRSE Annual Congress. In addition, onsite attendance of the congresses is much cheaper! What's there not to love? Purchase your 2025 All-Access Pass now to enjoy an additional month free of charge!

FELLOWSHIP GRANT PROGRAMME

Get ready for the Fellowship Grant Programme!

Take the next step in your career and train at a European centre of excellence of your choice for an entire month! Twenty grants will be available in this funding cycle, and all CIRSE members in good standing are invited to submit their application between Nov. 20 and Feb. 10. Learn more here and submit your application today!

ECIO 2025

Submit your abstract for ECIO 2025

Boost your career by presenting your work at the world's biggest meeting for interventional oncology! With its strong interdisciplinary focus, ECIO is a unique platform for knowledge exchange across the MDT. Submit your abstract today to present your work as a poster or in person at the congress!

ICCIR 2025

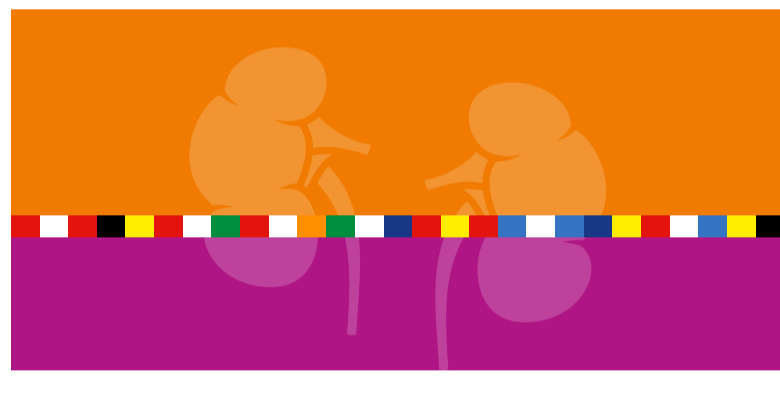

Submit your complications case

This year, ICCIR will again take place to provide interventionalists with a discreet and professional environment to discuss cases that did not go according to plan and to find solutions for how to best avoid complications going forward. Submit your complications case to contribute to the discussion and provide a valuable learning opportunity for your colleagues!

CIRSE STANDARDS OF PRACTICE

New SOP on transjugular intrahepatic portosystemic shunts

CIRSE's latest standards of practice document provides best practice recommendations for transjugular intrahepatic portosystemic shunt creation in both adult and paediatric settings. Writing group coordinator Dr. Pierleone Lucatelli was joined by an expert writing group to put together the outstanding document. Access it here and make sure to share it with your colleagues!

Kidney, liver, and thyroid ablation

Join the ESIR's two-day course on ablation of the liver, kidney, and thyroid to fine-tune your practical skills to learn about current treatment options as well as advanced image-guidance! Organized by Prof. Afshin Gangi and Dr. Roberto Luigi Cazzato at Strasbourg's world-renowned Institute of Image-Guided Surgery, this course includes workshops enabling participants to practice on both ex-vivo and in-vivo models. Learn more and secure your spot today!

ESIR 2026

Host an ESIR course in 2026

The European School of Interventional Radiology is calling on all centres of excellence wishing to host a course at their institution in 2026 to submit their application by Jan. 17. ESIR courses have been held in leading hospitals across Europe since 2006, combining expert-led lectures, case discussions with practical hands-on training on cutting-edge medical technology. Apply now to share the procedural and clinical knowledge of your team with interventionalists from around the world!

CVIR

CVIR Editor's choice
